

Philip Koenig and Adriana McLamb's Platform

- We will work towards the creation of involvement.fiu.edu, a one-stop shop for students to find University and community involvement opportunities
- We will collaborate with the Athletics Department to create innovative marketing campaigns aimed at increasing school spirit and student attendance at FIU sporting events.
- We will work with FIU Recreation Services to improve and expand intramural field availability.
- We will work with the FIU Textbook Affordability Committee, as well as individual colleges and professors, to delay the adoption of new and more expensive editions of textbooks.
- We will push to implement the Green Energy Fund that will fund green initiatives to help reduce university energy costs, create new job opportunities and reduce FIU's ecological footprint.
- We will help student develop professionally by collaborating with Career Services to host periodical "student success" forums in topics such as resume and cover letter building, mock interviews, and job placement research.
- We will work with Academic Advising to improve the quality of the students academic advising experience as well as their individual relationship with their corresponding advisor.
- We will work with the university's Office of Planning & Institutional Research to improve the quality of teacher evaluations and to enhance the online interface for easy accessibility and readability.
- We will conduct research initiatives to fully conceptualize the wants and needs of the student body.
